Frank showing the WorkSharp 3000

Frank gave a demo on the Worksharp 3000 and showed how to get

exceptionally sharp chisels and plane blades. He also demonstrated that the device could be used to sharpen turning tools and curved carving tools.

A close up of the razor sharp second bevel edge attainable on even a 30 year old chisel.

## Buy, Sell and Trade

John Sheldon still has a slowly diminishing supply of various species of wood available, including Mahogany, Cherry and Walnut.

We hope both are able to join us on Tuesday.

### Show and Tell

We had 7 participants in Show-n-Tell and Terry, Frank and Art won the drawings.

### Show-N-Tell Pictures

Terry had 13 cars he made and led us through a discussion of front vs rear – ultimately resolved by adding a “Continental Kit”!

Terry’s cars!

Brady came up with 39 cars he had fun making out of pine!

His favorite was his “mini”!

Some of Brady’s cars and trucks.

Art had “about” 96 whistles made on his Incra Jig - all out of a 2x4. He explained the various steps (Many!)

Bill made a number of unique toys from scrap Maple and 2x4s. He said he “didn’t make enough.” But he made more than most of us!

A close up of Bill’s output.

Lloyd with his “fixed” wing jet fighter! Actually Lloyd had the widest variety and most unique toys to contribute tonight! Many good ideas!

Lloyd had a whole pile of stuff in his corner!

A close up of Lloyd’s Giraffe Puzzle!

Gene had one of his “patented” Skate Board Wheel race cars. Looked FAST!

Tim had one of his Golf Clocks and it was  
“worth a shot”!

SEE! Another one!

Tim is among the best at these letter signs  
–Faith, Hope and Love are a great  
example!

Frank apparently fell asleep talking  
about another knife! Maybe he  
should change what he shows!
